Computer Group

Learning, Laughing, and Living in the Digital Age

Presentation Slides & Group Guidelines Template

Welcome & Peer Learning

Exploring technology together in a relaxed and supportive environment

About Our Meetings

-  **No exams or pressure:** We discover technology at our own pace with absolutely zero assessments.
-  **Peer-led sessions:** Everyone has something to teach, and everyone has something to learn.
-  **Social & supportive:** Enjoy refreshments, make friends, and solve tech problems over a warm cup of tea.

What We Cover

Digital Basics

Get confident with operating systems, file folders, keyboards, mouse controls, and adjusting computer settings.

Staying Connected

Master communication tools including secure emailing, video calls (Zoom/Teams), messaging, and social platforms.

Online Safety

Learn tips for identifying scams, secure password management, safe online shopping, and browsing the web securely.

All the slides you have seen in this opening were generated by artificial intelligence. Quite amazing.

I asked Google Gemini to make a presentation template for the university of the third age and it came up with these slides. Until now, I had not even appreciated that u3a colours are yellow and blue.

Artificial Intelligence

**Please now refer to my own
slides in part two of the
presentation
